

I.S.A is starting a beginners rifle program, it is Daisy BB based and is for shooters of all skills and ages. So if you would like to learn a little or just shoot a little, this may be just what your looking for. There are safety classes available for new shooters (BUCKS) recommended And training for intermediate shooters (RED RYDERS). Then for those that wish to follow competition shooting there will be a (AVANTI) class and range training available. In addition there will be shooting of all ages called (GUNNERS). All Gunners MUST have previous Training.

There may be some minimal fees and age limits, along with a responsible parent along with the new shooters. The (BUCKS) age requirement is age 7 prior to the class. Due to safety on the range we will require eye protection worn by all during shooting. Shooters must be responsible and able to follow range officer commands at all times. This will be covered in training and Inforced.
